Esslingen, Juli 2011

Dear Business Partner,

Our company considers the differing requirements which arise as downstream user through the introduction of "REACH".

This is also valid when considering substances of very high concern (SVHC) in the candidate list of the ECHA.

Updates are continually tracked through an external chemist without being requested and we check jointly whether our products are affected or whether a duty of notification from our side exists.

At this point in time we have no duty of notification in connection with REACH article 33 and the current edition of the candidate list (ECHA).

As we will follow this practise in the future, it is not necessary to ask after every regular update of the candidate list.

All questions with regard to REACH should be placed on our contact

Dr. Werner Imrecke  
[imrecke@imrecke.de](mailto:imrecke@imrecke.de)

Best Regards,

Hans-Jürgen Schäde  
(IM, Quality Officer)

Best Regards

Bauer Gear Motor GmbH
