Esslingen, 8. May 2006

Danfoss Bauer GmbH·Postfach 10 02 08·D-73726 Esslingen

To our customers

EC Directive 2002/95/EC (ROHS Directive)¹

Dear Sir/Madam,

As of 1 July 2006 the EU member states resolved that new electrical and electronic devices on the market must not contain the following substances:

- ✗ mercury
- ✗ cadmium
- ✗ lead
- ✗ chrome VI (chromate)
- ✗ PBB and PBDE (fire retardants)

Danfoss is also working to implement the Directive and the associated WEEE Directive as quickly as possible.

However, we are now able to inform you that the products that we are supplying to you do not contain the above substances in relevant concentrations. This statement is applicable regardless of whether the products that we are marketing are electrical or electronic devices as defined by the Directive (Art. 2 with Annex 1A/B).

Please contact Mr. Jürgen Fuchs (tel.: 0711/3518-459) if you have any further questions.

Yours sincerely

Danfoss Bauer GmbH
